Bob tells your editor that his main concern is trying to get out and stay out of debt. Seems every time they get out, something happens to put them back in debt. Bob and Donna built the home in which they live - starting in 1978. They redesigned some floor plans of the builder, creating 'their' home. Slowly they have converted the basement into a nice recreation/family room, completed in 1986. Bob is a programmer/analyst at the Oak Creek - Franklin K Creek School District, Computer Services Center. It is a nonprofit self supporting organization working under the School District. The Center supports both schools and municipalities with DP services. He programs on an IBM-4331 DOSivSE system with 4 MB real core. The system has over 100 remote terminals and printers in the metro Milwaukee area. Bob started there in 1980 and worked through a First Generation Honeywell system to the IBM. Bob did a lot of conversion programming in those days and continues to do conversions from old batch systems to on-line systems.

Bob's coup de purchase was a "Beehive Topper" (BT) 64K computer and a good Wang printer (all in all, about \$4K's worth for about \$4501) The only major programming Bob has done on that system is for Donna (the Boss of the House.) Donna works for a small newspaper in Mukwonago. The only DP equipment they have there is for setting up the newspaper and generating mailing labels. Donna's boss is still in the dark ages, will not purchase an office computer, so Bob programmed the BT to help Donna. What used to take 3 to 5 hours on a calculator now is done in less than an hour.

Route 2, Box 11AA

Radford, VA 24141-9030

At Schierstein: May, 1973 - June, 1976

Sergeant, Left Air Force June, 1976

After leaving Germany, Frank moved to Jefferson City, Missouri. There he worked with Steve Harvey and Jim Taylor at the Department of Revenue. Later, Ron Quick joined up with them (was Jeff City ready for that?)

Frank married Gwen Olexik in Jeff City on May 19, 1979. Ken Glenn's call to say he was not coming to the wedding (hard to believe!) was an introduction to First Alabama Bancshares, Inc. in Montgomery, Al. Frank and Gwen moved to Montgomery 1 week after the wedding. Frank was a programmer/Analyst with FAB and Gwen joined the staff of the Dept of Communication at Auburn University at Montgomery. In December, 1985, after a year away at the University of Maryland, College Park, Gwen received her PhD in Public Communication with an emphasis in Political Communication.

Frank and Gwen moved to Radford, Virginia in August 1988. Gwen is an assistant Professor in the Department of Communication, with great opportunities for teaching and research. Frank is currently a 'kept man', and will continue in a Master's program in Corporate Communication. After a 12-year hiatus, going back to school was interesting, to say the least.

They both have been active in various communication endeavors. Frank won the American Institute of Banking National Speech Contest in 1982 and served as District Governor for Toastmasters in Alabama in 1983-1984. Gwen has made numerous presentations at conventions of her professional speech associations and is awaiting word on publication of a paper in a communication journal.

Stephen P. Harvey Ann

Robert (Bob)

3112 Southwood Circle Jefferson City, MO 65101

(314) 634-9314

At Schierstein: August, 1972 – July, 1975

Major, US Air Force Reserves

Steve now works at the Callaway Nuclear Power plant as an emergency planner. The company, Union Electric, has unionized its data processing department, so Steve's not allowed near a computer. His Air Force Reserve assignment is to the Jefferson City Police Department and there he has his own IBM System 36 with which to play.

Ann teaches remedial reading at the Mokane Elementary School. She is currently working on her Doctor's Degree from the University of Missouri. Bob is a senior at the Jefferson City High School. He plays the flute and piccolo in the band (ed. note: with all the other flute and piccolo players being female, I see the method to Bob's madness.) He (with the band, of course) marched in the 1988 Tournament of Roses parade in Pasadena. Bob took a COBOL class and made an "A" in it. He wants to study Aeronautical Engineering and Computer Science in college. He went to the U.S. Space Academy at Huntsville, Alabama in 1987 and 1988. The Harveys have a "house" beagle named Jack who hides socks and chews the tags off of underwear (Doesn't the dog know that's a Federal offense?) Steve still has the infamous white BMW motorcycle, but he doesn't get to ride it that often.

They are both active in local bowling leagues (Mary has bowled in National tournaments, etc.) Dan is also involved with the Knights of Columbus. Son Brian was born in Alabama in October, 1976 and is now the only child at home. Bob and Donna have 1 year to retirement, hopefully to the Denver area. Roger A. Park

1171 Zimmer Drive, Atlanta, GA 30306
(404) 874-2733

At Schierstein: July, 1971 – August, 1976

Staff Sergeant, Left AF July, 73. GS-9, left GS in 1976.

Hmmm! Let's compress the last 12 years into less than 1 page. Wiesbaden was the first taste Roger had had of "Big" cities and mild climates so that led him to select Atlanta sight unseen! He certainly has not been disappointed. After leaving Germany in August, 1976, he spent a short vacation with his folks in upstate New York and went to Atlanta in October, 1976. He liked(s) Atlanta since he's been there ever since.

He did a few interviews and accepted a job with The Southern Company, where he still works. He knew nothing of the company when he answered the advertisement but the move has been good to him. Southern is the parent company of five electrical utilities in the Southeast (all our Alabama cohorts are paying his salary,) plus Southern Company Services, Inc.(SCS), where he works. SCS is the ' the service company which provides engineering, financial and data processing services to the Electric operating and parent companies. He was hired as a programmer/analyst to develop a financial model and moved up to supervisor. He then became Manager of Customer Accounting (150,000 customer bills a day--boy, was his tongue tired!) and then he moved into Corporate Information Systems to handle a zillion things such as fuel accounting and stockholder information systems. He has been the Manager of VM Systems since February and it has been, for Roger, like a rebirth! He loves it. It's very technical--all of which he had forgotten--and very unlike the six 2260's at Schierstein. His job is to keep a kudahl 5890-200E available 7 days a week, 24 hours a day!" He meets his service level as long as no outage lasts longer than six minutes! The system has about 4,000 users, 800 of whom are usually logged on at one time. They also run T1VS on an IBM 3090-500E and two Amdahl 5880s. They use SNA to connect to one of the MVS systems plus he has ten remote sites all running W1. It's quite a job keeping them all available and connected!

On the home front, Roger is working on his second house--this one built in 1936. There is quite a bit of remodeling to be done but it's almost done and Roger thoroughly enjoys his "new" house. He enjoys hearing from old Schierstein friends and has had visits from Ken Glenn, Frank Brown, Jake Jacobson, Norm Kelly and the Oakleys. Roger also spent some time with Mike Bell and his family when he was in Mississippi. Roger extends an open invitation to visit if you're ever in Atlanta (and as all of us in the South know, you can't even go to Heaven or Hell without going through Atlanta!)

Ronald L. Quick Gloria

Ronnie (17) Cindy (16)
3311 East 40th Court Des Moines, IA 50317
(515) 263-0047

At Schierstein: July, 1972 – November, 1975

Staff Sergeant, Left Air Force, February, 1977

After leaving Germany, Ron and Gloria went to Montgomery, AL and worked at the Air Force Data Systems Design Center until discharge. They then moved to Jefferson City, Missouri and where Ron worked for the Department of Revenue as a Computer Programmer. Ron worked up to a programming Manager before leaving in October, 1978 to return to Des Moines. Since then, Ron has worked at Communications Data Services in DM as a Senior Programmer/Analyst. Ron was best man for Frank and Gwen Brown at their wedding.

Outside of work, Gloria and Ron are very involved in their church and with the activities of Ronnie and Cindy (*Ed. Note: including trips to the Talladega 500 one summer.*) Both Ronnie and Cindy are quite active in High School activities.

Doug Reed Barb

Wendy (16) David (14)
730 Wuthering Heights Drive Colorado Springs, CO 80921

At Schierstein: August, 1973 – August, 1977

Retired, Major, February, 1986

Doug moved to Colorado Springs after a three year tour of duty in Japan (1982-1985.) The Japan assignment was with Det 4, Foreign Technology Division and was filled with TDYs to Australia, Hong Kong, Singapore, Bangkok and many to Korea. Doug's final assignment was to HQ FTD (6 months) prior to retiring. Doug is now working for Geodynamics Corporation as a Software Engineer / project Manager. They live in Colorado Springs and "have no intention of **moving--ever.**" Their address with remain, it appears, quite constant

for quite a number of years. Doug and Barb are into sunshine and great skiing.

Wendy is a senior in High School. She was a cheerleader last year and on the tennis team. She anticipates attending the University of Colorado after High School graduation. David is a freshman in High School and, according to Doug, both kids are good students.

For anyone in the Colorado Springs area, the Reeds are in the phone book and extend an open invitation to call and visit. They'd love to see you.

Their family is healthy and doing well. Jan is a full time mother and is active in the community. Stephanie is doing great in school and was just accepted at a private academy. Alex is a very active little guy and seems like a go-getter. Barry is anxious to hear from anyone coming through the Philadelphia area--their front door is always open!

Their son, Scooter, is almost 4 years old and is the joy of their life (after Jesus, according to Phil.) All in all, things are going well.

Phil is glad this directory is going to be completed since he is "terrible at keeping up with old friends". Carol does all the writing and Phil noted they had seen and been in contact with Houston and Ron since they saw both of them on their trip to Virginia (but that was 1981!)

Peter Zwally Dot

Peter (20) Michael (16 1/2)-born in Wiesbaden

General Deliver, HAFB Bedford, MA 01731

DP: 377-8831

At Schierstein: February 1971 - June 1976

Captain, Active Duty

After Schierstein, the Zwally's hit the Pentagon. They were there for a 2 year tour of duty, during which time Pete completed his undergraduate degree at the University of Maryland. After the Pentagon, Pete went to OTS and 2nd Lt. bars (unlike singles bars today.) He also transferred career fields into Security Police. They then moved to Dover AFB, Delaware for 8 years, except-for a one year remote for Pete to Clear AFS, Alaska. Their last tour before moving to MA was in Carbondale, Illinois for 3 years of ROTC teaching at one of the many Illinois Universities.

They are now at Hanscom AFB, Massachusetts. They just got there and are awaiting base housing. Pete notes the *inexpensive* homes in the area start at \$115K (big bucks, what say?) Pete says it appears one gets little for the dollar there. Pete is a major-selectee, with a date of promotion set for the October to December '88 time frame.
